Washing Line Sentences

Ideas for activities

1. Lay out as an activity for children to do independently. Prepare an A3 sheet of paper with a washing line drawn on it for each child. Each child could be given a picture and the matching set of t-shirts mixed up. Each child in turn could make the sentence to go with their picture by placing the t-shirts in the correct order on the washing line.
2. Use as a teaching tool with whole class or group by using the cord and pegs provided as a washing line. Ask children in turns to come and place the words from the matching set of t-shirts in the correct order to make a sentence which goes with the picture you select. Each child chosen could do one word and then the next child chosen could do the second word and so on.
3. Use as a teaching tool for whole class or group by compiling a sentence together to match picture shown and then ask children to read sentence and then ask children to close eyes and remove a word from sentence. Choose a child to work out which word is missing. Then ask child to write the word on a blank t-shirt to complete the sentence again.
4. Leave out in the classroom for children to do sentences independently using the cord, pegs, shirts and washing baskets.
